## THE NEIGHBORING MOVEMENT

The Neighboring Movement is a 501c3 organization located in Wichita, Kansas. We believe that an asset-based approach to neighboring can create lasting change in the world, reduce a host of social issues and increase the quality of life for individuals, communities, and beyond. We live out relationship, abundance, and joy in our founding neighborhood and share what we've learned in simple, doable, and universal ways with individuals, churches, and civic organizations. We work to create lasting, sustainable change while enriching the lives of participants, their neighbors, and their communities.

## KANSAS ANIMATOR NETWORK (KAN)

The Kansas Animator Network (KAN) is the place for Kansans who desire equitable, passionate, and compassionate community to connect with one another, learn asset-based community development, and act to strengthen their neighborhoods from the inside out. We believe civic infrastructure starts in the neighborhood, and that by animating communities, we can bring about social and political changes that would otherwise not exist.

## OUTCOMES

- Neighborhood and community engagement
- Engagement with local stakeholders
- Create allies
- Build asset maps
- Mobilize around hyper-local interests
- Community building
- Civic engagement
